WORK EXPERIENCE

User Experience Researcher

Junior User Experience Researcher

Backbone

July 2024 – Present

October 2023 – July 2024

Atherton, California

- Conduct research on Backbone controllers, website, advertising, pricing, retail displays, packaging, mobile app, and consumer insights.
- Run bi-weekly usability studies with 2-day turnaround for reporting that informs key ongoing product decisions.
- Execute quarterly playtests delivering statistical analysis and insights for decision making at key project milestones.
- Design and manage longitudinal dogfooding studies for hardware validation and software bug reporting.
- Mentor and assist junior researchers with the design, execution, and reporting of research.
- Present research findings at the executive level.
- Co-inventor of Backbone Pro – patent pending – involved in all research from conception to launch and ongoing post launch studies.
- Provide expert reviews of hardware and software prototypes, delivering actionable feedback to designers and engineers.
- Deliver quarterly consumer insights reports, analyzing voice of customer, churn, abandoned cart, and post purchase surveys.

User Experience Research Intern – Vehicle UX

Rivian Automotive

June 2022 – August 2022

Irvine, California

- Led an end-to-end research project resulting in new product initiatives utilizing diary studies & qualitative interviews
- Presented findings to senior and director level stakeholders from 4 cross-functional teams informing product roadmap and strategy for next-gen vehicles through generative research
- Assisted senior researchers with the execution, analysis, and reporting of research

Research Intern

NGO Cultural Heritage Without Borders

Sep 2019 – Dec 2019

Tirana, Albania

- Created a prototype digital reconstruction of the Albanian communist labor camp Spaç Prison. See: spacprison.com
- Collected eyewitness testimony from former prisoners and conducted usability testing on the prototype
- Winner of the Worcester Polytechnic Institute 2020 Presidents IQP Award.

SKILLS

UX Research

- | | | | |
|--------------------------|------------------------------|----------------------------|-------------------|
| – Usability Testing | – Max-diff Studies | – Card Sorting | – Journey Mapping |
| – Survey Design | – Qualitative Data Analysis | – Interaction Design | – Personas |
| – Diary Studies | – Quantitative Data Analysis | – Information Architecture | |
| – Qualitative Interviews | – Expert Review | – Rapid Prototyping | |
| – Conjoint Analysis | – Concept Testing | – Competitive Analysis | |

Frameworks & Software

- | | | | |
|----------------|----------------|-------------|--------------|
| – R Studio | – Conjointly | – Qualtrics | – Jira |
| – Excel/Sheets | – Dscout | – Figma | – Confluence |
| – Alchemer | – User Testing | – Dovetail | – Git |

Programming Languages

- | | | | |
|----------|----------------|--------------|--------|
| – R | – C / C++ / C# | – JavaScript | – HTML |
| – Python | – Java | – TypeScript | – CSS |

EDUCATION

M.A. User Experience, Applied Cognitive Psychology

Claremont Graduate University

May 2023

Claremont, California

- | | | | |
|---------------------------|-------------------------------|---------------------------|--------------------------------|
| – Intermediate Statistics | – Applied Multiple Regression | – Design Thinking | – Applied Cognitive Psychology |
| – ANOVA | – Categorical Data Analysis | – Persuasive Technologies | |

B.S. Computer Science, B.S. Interactive Media & Game Development

Worcester Polytechnic Institute

May 2021

Worcester, Massachusetts
